Rhinelanders Suffers Defeat.

The foot ball game played at Mari-
nette Thanksgiving day resulted in
a score of 6 to 0 in favor of the Mari-
nette eleven. The day was not propi-
tious, the ground being covered
with two inches of snow and wind
and sleet much in evidence. Notwith-
standing the unfavorable conditions
however, a \$104 crowd assembled to
witness the game, which was one of
the best and was most intensely in-
teresting to the on lookers.

The fact that it was the day on
which the American people give
thanks and incidentally provide a
dinner extremely comforting to the
palate was forcibly brought to the
minds of the boys when they went
to the best hotel and heard Capt.
Walker order "a small piece of rare
roast beef for thirteen men." It
made some of them think that it took
a pile of nerve to belong to a good
team and obey orders regarding diet.
Guard Dimick sat there and chewed
his piece of beef with tears in his eyes.
He saw a man at a table across from
him give an order he wanted to put
away himself, but the best he could
do was to watch the other fellow
and swear away down in his soul
that if he ever played another game
on Thanksgiving day it would be in
the forenoon, before the hour devoted
to turkey and cranberry sauce.

The game was called at the ap-
pointed hour. Rhinelanders lost the
toss and was obliged to play the
half against sleet and snow. The
ball was kicked off to Marinette, who
was unable to make the required five
yards. Rhinelanders took the ball on
downs and advanced it nine yards
the first play and five yards each of
the following plays and was finally
forced to punt. The punt was
blocked and Rhinelanders gained pos-
session of the ball on their twenty
yard line. Different plays were then
tried to determine the relative
strength of the teams. Rhinelanders
punted but the ball went high and
was carried back to within eighteen
yards of their goal line. The sphere
was secured by James, who fell on it
but it was turned over to Marinette
by a claimed off-side play. (This de-
cision was illegal and the officials
apologized for it after the game.)
Marinette was unable to advance the
ball more than a foot each play and
lost it on downs six inches from their
goal line. Rhinelanders here plunged
through the Marinette line for short
gains and retained possession of the
ball for the balance of the half.

The second half opened with the
wind in Rhinelanders' favor. Rhine-
landers kicked off to Marinette who
advanced the ball to their fifty yard
line. The next few scrimmage plays
resulted in a fumble by Marinette
and the ball was secured by Dimick.
Marinette then lined up as if for de-
fensive play when Referee McGillan
stepped in and turned the ball back
to them. At this time one of the
Marinette linemen wound the cord
around his stick thus shortening the
distance required for Marinette to
gain materially. Capt. Walker states
that both of the officials claimed that
they measured the line and found it
from one to two yards short at two
different times when the ball was in
Marinette's possession. Mr. Bever-
idge, of Appleton, who umpired the
last half, thought the gains were not
long enough to cover the required
distance and said that Marinette
lost the ball on downs at least
three times and did not deliver it
to Rhinelanders because of the
dishonesty of their linemen.

When the fraud was detected Rhine-
landers took the ball on downs at
once. Plays were made back and
forth in their territory until finally
Marinette obtained possession of the
ball and LaFontaine made two or
three gains around Rhinelanders'
right end. These gains were the only
material ones made, their longest
gain being twenty-five yards. At
the end of the series of gains Grant
gave way to Reed and after
the change was made Marinette
never gained the required five
yards. Rhinelanders secured the
ball on their twenty yard line and
Meikjohn fell back to kick. He was
tardy in making it and it was
blocked by Marinette, one of their
men falling on the ball as it rolled
over Rhinelanders' goal line, thus re-
sulting the only touchdown. After
this a few scrimmage and trick plays
were tried by Rhinelanders, but owing
to the condition of the ground they
were unable to make gains. The
Marinette team was outwitted by
every trick play attempted by Rhine-
landers, but the home team was un-
able to move and hold their custom-
ary footing and invariably fell

when opportunity was offered to
make gains. In two trick plays, es-
pecially, Marinette was so deceived
that they gave a clear field to the
Rhinelanders man with the ball, but
conditions were such that a quick
start could not be made and the run-
ner fell both times. The game ended
with the sphere on Rhinelanders'
twenty yard line.

The defense work put up by Rhine-
landers against the heavy Marinette
players was remarkable and reflected
great credit upon Capt. Walker's
course of training. The only work at
all out of the ordinary on Marinette's
part was the lunging of their right
half back, who, depending on his
weight, was successful in making sev-
eral good gains.

Both teams played good square
football. There was no slugging, of
which so much talk is heard now-
days, nor was there ill feeling. The
only complaint the boys had was due
to the dirty work of the Marinette
linemen.

The game was the last of the sea-
son and the boys will now have an
opportunity to recuperate and dispel
their black and blue decorations.

A Big Deal.

The following article from the
Joplin (Mo.) Daily Herald, will be
read with interest by many Rhine-
lander people. Mr. Hugh Melndoe,
referred to in the article, is a son of
Mrs. Kate Melndoe, of this city, and
he has many acquaintances here who
will be glad to learn of the great
success he is meeting with:

Dexter, Johnson & Co., the well
known Chicago financial agents and
promoters, yesterday completed the
negotiations transferring the Monte
Cristo Mining and Smelting com-
pany's lease, with the mine of Chew
& Co., at Galena to a syndicate of
Chicago capitalists for \$10,000.

The property is one of the best in
the Galena district, being in a group
of big producing properties. It com-
prises thirty acres of the Connor &
Phelps land, the other ten acres of
which is operated by the famous
Cripple Creek company.

On the east is the Stanley mine
which has produced over \$200,000
worth of ore, on the north is Col.
John R. Holmes' Columbia, and on
the northwest the Mastin land which
has produced \$1,200,000 worth of ore
in three years. The Chew & Co. mine
has paid its owners \$500 per week,
cleaning the ore on hand piles, since
operations began about two months
ago and in the past year the Monte
Cristo property has netted \$10,000 to
the owners. Besides the Chew & Co.
mine there are several other good
properties on the property.

Among the purchasers are A. F.
Dexter, A. D. Joslin, August Junke,
Dr. C. F. Bruckerhoff, Hugh Melndoe,
Chas. W. Johnson, Max M. Wolfarth,
A. S. Oehring and H. Burgz, most of
whom are interested in the Chitwood
Hollow Mining Land Co. and the
Hedon Zinc Mining Co., of Joplin.

Mr. Melndoe is also principal owner
of Chicago Consolidated and Silver
Shield mines in Chitwood hollow.
The stock in the Monte Cristo prop-
erty and the Chew & Co. mine was
owned by W. A. Hacker, W. H.
Picher, W. E. Hacker, R. C. McCon-
nel, of Joplin, J. R. Sapp, Judge Ed-
ward E. Sapp, John McCallough,
Mrs. W. F. Sapp and Wm. Coew, of
Galena. The new owners of the
property will begin arrangements at
once to erect a concentrating mill
with a capacity of handling 120 tons
of dirt daily which is to be completed
and in operation by January first.

There is a developed face of ore 40
feet high and 55 feet wide in the Chew
& Co. mine on which to begin milling
operations.

Melndoe, who is a prominent Chi-
cago attorney, will take charge of
the company's business at once and
will spend a large portion of his time
here settling contracts and seeing that
they are complied with, in regard to
the construction of the new mill, and
also in looking after his various
other interests that will occupy a
portion of his time.

Mr. Melndoe is largely interested
in gold and silver mining properties
in Mexico and is the principal owner
of the largest mica mine in Alabama.
He has been uniformly successful in
all of his mining ventures and this
will probably prove no exception.

Mr. Dexter is the owner of the great
Dexter building in Chicago, and is
well known in financial circles all
over the country. W. A. Hacker
engineered the deal at this end, which
is a good one for all concerned. The
officers of the new company are A. F.
Dexter, president; August Junke,
vice-president; Max M. Wolfarth,
secretary and treasurer.

To New North Subscribers.

During the next week we shall send
a statement to each subscriber to the
New North who is in arrears on
subscription, and trust that the call
will be responded to. It is necessary
that these accounts be settled in
some way by the first of January.
It takes money to run a newspaper,
and the notion that a few seem to
have that the New North was put
on the free list with the passage of
the Dingley bill, is erroneous. We
want to hear from these accounts
and trust that correspondence with
us in relation to them will be more
agreeable than through an inter-
mediary.

WISCONSIN STATE NEWS.

School Fund Appropriated.
The sum of \$20,000 has been appropriated among the 100 free high schools of the state by Superintendent of Public Instruction Emory. This is the regular annual appropriation, and as the number of schools increases each year the appropriation to each grows less. This year the high schools which have extended 17,000 or more for instruction during the year receive \$260 from the state. The others receive about one-fourth the amount they have expended for instruction.

A Terrible Crime.
A mysterious triple crime was committed at the home of Ernest Cornell in Oconomowoc. Willie Cornell, aged six, and Lillie Cornell, aged four, were found dead, lying on their back with their throats cut, and Ernest Cornell, their father, was lying on the floor with a large gash across his throat. The general opinion is that Cornell killed the children and afterward attempted to commit suicide because of domestic troubles, as he makes charges against his wife and a teacher named Lewis.

A Railroad Change.
It is currently reported that the Rockport Valley & Northern railroad, which runs northward from Wauzeka, a small Wisconsin river station on the Prairie du Chien division of the Chicago, Milwaukee & St. Paul railway, has passed under the control of the Illinois Central company, and that the Rockport Valley road will be the connecting link in a new route that will extend to St. Paul and Minneapolis.

A Heavy Failure.
Harry Sherry, the millionaire lumberman and paper mill owner of Newburg, assigned to James W. Cameron, of Milwaukee, a former business associate. His liabilities are estimated at \$500,000, but he says he will pay dollar for dollar for his extensive assets are judiciously handled. Mr. Sherry has property and business interests in nearly every northern county in the state.

The Christian Alliance.
At the quarterly meeting in Madison of the State Christian alliance, whose object is to unify Christian forces against the saloon and to secure Sabbath observance, the following officers for the ensuing year were elected: President, James H. Moseley, Madison; vice president, Rev. M. G. Hodge, Beaver Dam; secretary, J. G. Blues, Waukesha; treasurer, A. J. Benjamin, Green Bay.

Dies While at Prayer.
The body of Samuel H. Skewes, aged 50, one of the best-known men in Barre county and a pioneer, was found dead in his bedroom in the Thompson house at Union Grove. The body was found in a kneeling position against the bed, with his hands clasped as if in prayer. Apoplexy was the cause of death.

To Be Opened to Settlers.
Oneida county has secured title to about 20,000 acres of land by perfecting its title by quit-claim and foreclosure proceedings, and the county board has authorized its disposition to settlers who will agree to improve the land.

The News Contended.
The North Wisconsin Lumber company closed its sawmill at Hayward after a season's run of 100 days and a cut of \$100,000 from the market.

Lars Jensen was Killed by the Caving in of a Sewer at Racine.
J. P. Morris, a young man killed himself with a revolver in the hotel Pflaster at Milwaukee. He had registered as coming from Madison.

F. W. McNally, a veteran of the war, died in Plymouth, aged 22 years, and leaving a widow and five children.
The Jonesville Plating company's factory was burned, the loss being \$20,000, with a small insurance.

Miss L. L. Nicholson, wife of Bishop Nicholson, of Milwaukee, died of consumption after an illness of two years.
John Foss, Jr., of Appleton, has been elected overseer of the Outagamie workhouse.

At a meeting of the fifteen lake county board of supervisors a petition was granted calling an election next fall for the removal of the county seat from Burlington to Berlin.
Ex-Mayor E. W. Hazen has sold his hotel property in Virgata to James S. Case for \$10,000.

The burglars who blew open the safe in Eastman McMillen's store at Colfax secured \$700.
Green & Schriener, a leading clothing firm in Appleton, made a voluntary assignment with liabilities of \$15,000.

William Clark, Lucy Schriener and John Peterson were run down by a freight horse in Manitowish, and Miss Clark's back was broken.
Herman Pellagra, aged 65 years, a recluse, was found dead in his cottage in Madison.

Martha Tourtellotte, a wealthy farmer of Bristol and a pioneer, died at the age of 50 years.
W. F. Campbell, aged 22, principal of the Florence high school, was drowned while skating on Fisher lake.

Selomon Frank, a dealer in dry goods and clothing in Oconto, made an assignment with liabilities of \$50,000 and assets of \$10,000. The cause was poor collections.
Dr. F. H. Kanowitz, aged 28 years, was found dead in his office in Milwaukee, and it is considered probable that he poisoned himself because of business troubles.

Payment of the \$200,000 issue of Wisconsin Central certificates has been deferred until November 15, 1903, by Judge Jenkins, of Milwaukee.
Charles Schmidt was convicted on a criminal charge in Montello and sentenced to five years' imprisonment at Waupun.

Peter Keller and C. Hale were killed in an accident on the Soo road near Armstrong creek.

BUSINESS OUTLOOK.

Exports of Cereals Are Heavy and the Balance of Trade Unfavorable.
New York, Nov. 27.—R. G. Dun & Co. in their weekly review of trade, says: The heavy exports of wheat, with the prospect of a further increase, is the most interesting and important feature of the week's events. Since August, when the extent of the foreign deficiency became realized, exports have been larger than in corresponding weeks of any previous year. The cotton crop also has become very heavy, and the cargo of corn falls little below last year's unprecedented record, while in exports of manufactured products, especially machinery, all records for the season have been surpassed. While the aggregate from November last year was over \$100,000,000, shipments for New York for three weeks have been slightly smaller, with a fair prospect that the increase in cotton and other products from other ports may make up the deficiency. Meanwhile imports are running behind last year's at New York—nearly \$2,000,000 this month—so that another excess of exports over imports is mounting to \$10,000,000 by the month's end is probable. But this would make an excess of about \$22,000,000 in four months.

After the slight decline last Saturday wheat rose to 10 1/2c for November, with No. 2 red and No. 3 hard selling many cents higher. Yet western receipts are of enormous magnitude in four weeks, 7,672,000 bushels, against 5,214,533 in the same four weeks last year, while Atlantic exports, four included, were for the week 2,521,000 bushels, against 1,775,633 last year. The shipments from other ports have also been heavy, and nothing appears to charge former estimates of European needs. Corn also continues to go abroad in quantities that are large for the season, when all past records were broken, but the price has slightly declined.

The iron industry shows no decrease in production or consumption of pig, but with much reduction in quantities of exports of pig iron is expected, and Bessemer falls a shade to \$10.15 and gray forge to \$12.25 at Pittsburgh, though Chicago and eastern markets show no change. Expectation of lower prices tends to produce them at a time when new business is very truly small and the mills are working mostly on old orders with buyers impatient for deliveries. Other large orders are held back in plates by inability of the works to deliver in the desired quantities. For the week there have been 25 in the United States, against 20 last year, and 25 in Canada, against 23 last year.

SURE TO ANNEX HAWAII.

One of the Certainties of the Coming Session of Congress.
New York, Nov. 26.—Hawaii will be annexed to the United States during the coming session of congress, according to a Washington dispatch to the Herald. This is one of the certainties of the session. Senators and representatives, advocates and opponents, who have thus far arrived in Washington are practically unanimous on this point. President McKinley's message, the dispatch continues, will strongly urge upon the senate early ratification of the annexation treaty, and it will be one of the first topics brought up in the executive sessions.

FUSIONISTS SPEAK OUT.

Ohio Legislature Strongly Republican on Joint Ballot.
Cincinnati, Nov. 27.—At the recent election the fusion ticket which carried this county contained nine democratic and five republican members of the legislature. There has been some doubt as to how the republican fusionists would vote on joint ballot for United States senator. At a meeting of these fusionists here they decided to vote for the republican caucus nominee, which will make the legislature stand 50 republicans to 45 democrats on joint ballot for senator.

THE KLONDIKE FEVER.

There Will Be a Big Rush from England in the Spring.
The Canadian Pacific railway authorities and the dominion immigration officers look for a phenomenal rush of immigrants in the coming spring from England to the Klondike. When the news of the wonderful riches of that region reached England there was little time for preparation on a large scale and only a limited number of individuals started for the Yukon districts. Since then large companies have been organized, men have subscribed large sums of money, and in the spring they will be able to furnish men ready to start out for the gold regions.

In addition the dominion agents report that considerable numbers of persons in all parts of the United Kingdom having small means are simply waiting for spring to join their fortunes to the thousands who will be ready to rush into the Yukon from all parts of the world. Those who have recently come here from England are full of the Klondike, and state that it is the greatest of all over the country, and it will increase rather than diminish, as the spring approaches. The excitement, particularly in London, when some of the great finds were announced, bordered on delirium, and nothing but the insuperable difficulties of the route, at an advanced season of the year, prevented hundreds from making an immediate start. The tales of hardship which have already reached England have in no way intimidated those who have made up their minds to start in the spring.

It is the opinion of the same authorities that hundreds in the cities and throughout the dominion will be ready in the spring to set out for the new El Dorado. Where this desire exists it is known that the utmost economy is practiced, and preparations are being made now. The dominion authorities look forward to an unprecedented rush such as has never before witnessed in the world's history of gold mining, and all transportation lines are making special arrangements to accommodate the enormously increased traffic expected when the signal is given for the start for the Yukon in the early spring.

Some interesting information is now furnished by the department of the interior in regard to the routes to the Yukon, through the report of J. J. McArthur, the surveyor and civil engineer, sent up to the Yukon by the dominion government last May to make a topographical survey of the Dalton trail and the country adjoining. He condemns the Skaguay trail, and says the Dalton trail affords a first-class road for 200 miles, namely, from the coast to Five-Finger rapids, which is only 220 miles by unobstructed waterway from Dawson City. The first 40 miles from Chilkat inlet is on river flat, with an easy grade, thence to the local divide, which is 2,000 feet above sea level, and 20 miles from the water. One more local divide is crossed 20 miles further on at the watershed of the Alsek and Chilkat rivers. The rest of the trail to the mouth of the Nordenskiöld river, at Five-Finger rapids, is a succession of valleys, with hardly perceptible divides. In summer a man with a saddle horse and pack animal can make 20 miles a day on the Dalton trail, reaching Dawson City in 15 days. It can be done in 25 days with a pack train. So good is the trail along the trail that animals which were sent in this season fattened on the way. It is expected 1,000 sheep and 400 cattle reached Dawson before the river was closed to navigation.—N. Y. Sun.

Recovered from the Sea.
After having been submerged in 150 feet of water for seven years, the treasure on board the steamer Skyro, sunk off Cape Finisterre in April, 1891, has been recovered by divers. The Skyro sailed from Cartagena, bound for London, with a valuable cargo, including bar silver, valued at \$15,000. All went well until approaching Cape Finisterre in foggy weather, when the vessel struck on the Mexican reef, but passed over, and went down in deep water within 20 minutes, and about two miles off the coast. An expedition went out in the same year, but was unable to secure the treasure. Last year another effort was made, with more powerful diving apparatus, and resulted in 20 bars being recovered. The working depth for the diver was never less than 287 fathoms—174 feet and it frequently exceeded this. To obtain these bars it was found necessary to blow away the deck with dynamite, which the diver did, only after great difficulty, owing to the boisterous state of the weather. Work was compulsorily suspended in October, but again resumed last summer with satisfactory results.—N. Y. Journal.

Hismarek's Ideas of Government.
Hismarek is one of the great figures of history. Without him the union under a common government of so large a portion of the German lands would hardly have been achieved. Whether he was the one to create a nation as well as a government is not so clear. He is at heart a thoroughgoing believer in governing people whether they will or not. The Germans, intelligent, industrious, patriotic in spirit, would seem capable of governing themselves if any people are. They sadly need the training which can be had only from the practice of self-government. Hismarek, having free parliaments, free speech, a free press, assumes that only a little knot of princes and chancellors have the heaven-endowed skill to provide government for the whole nation. The great, and intellectual, and fearless German people will someday weary of that notion.—Prof. H. P. Johnson, LL. D., in Chautauquan.

Millions of Lobsters.
The slaughter of lobsters at Prince Edward's island is something astounding. There were exported the past season 91,000 cases, mostly to Europe, which involved the killing of 25,000,000.—N. Y. Sun.

—Francis Warlop, the cook of the Lakeside club, Grand Rapids, Mich., thought he could prepare foodstuffs to make them dainty eating. He ate a few of them and died.
—A landslide occurred a short time ago in Sattel, Switzerland. An inn and its garden and outbuildings slid down the hillside a distance of 25 feet, without being in the least injured. Two stately elms in the garden were also moved without injury.
—A fall from a scaffold at Watertown, Mass., caused the body of Joseph Morris, a bricklayer, to assume the rigidity of death. It was conveyed to an undertaker's room, and was being prepared for burial when the supposed corpse kicked the sides out of the coffin, arose, and walked home.

—Harvey Horner, of Sumner county, Kan., is an amateur snake charmer, and sometimes carries a reptile in his pocket. While he was attending a circus at Wichita, a pickpocket stole one of his pockets, and screamed like a madman when his hand came in contact with a live bull snake.

—Charles Chick, of Dayton, O., has a wooden leg. While he was riding on a train near Pelfontaine, a brakeman fired a pistol at a colored man whom he was striving to force off the car. The ball entered Chick's wooden leg and passed upwards into his stomach, causing a wound deemed to be fatal.

A VICTIM OF FATE.

The Pathetic Story of Mrs. Tartar, Who Didn't Marry a Count.
Poor Mrs. Tartar had always been peculiarly unfortunate. From her birth a train of ill luck had pursued her, although, not being on the Long Island railroad, it never passed over her head. At the time of her marriage her husband was a French count, employed in making himself otherwise generally useful at a summer hotel. Seven years later, when she began to think of saving up for the celebration of their silver wedding, he confessed one day that he was in reality a native of Holoken. A terrible scene ensued, in the course of which several pieces of the wretched man were distributed about the apartment by means of a pair of scissors. The noble woman, however, promptly forgave him, even going so far in her magnanimity as to assist him in the subsequent search for the missing portions of his anatomy.

Nevertheless, the painful disclosure made an indelible impression upon her sensitive mind, and although she carefully concealed the state of her feelings, never mentioning the matter more than once or twice at meal times, there can be little doubt that this secret sorrow was largely responsible for her premature decline at the age of 95.

She had been married barely 40 years when fate struck her once more in the solar plexus. After urgent request her husband had insured his life. Two hours afterward, while he was asleep, she happened to drop a large eight-day clock upon his head, whereupon he died.

For 15 minutes the widow was heartbroken. Then on hurrying around to the life insurance company she found that it had escaped to Canada. She certainly was a most unfortunate woman.—N. Y. Journal.

UNEXPECTED RICHES.

One Man Who Played a Trick to Good Advantage.
A certain speculator had need of a large sum of money for his speculations and found himself with a very small balance in the bank. He consulted a friend as to how he could get over the emergency. The friend suggested that he should draw on somebody in another city. The operator said that he knew no one who owed him, and the friend insisted that that would make no difference if the draft did not return too soon. The operator reflected for a time and then wrote out a draft on the Sultan of Turkey for \$2,000 and deposited it in the bank. The draft came into the hands of the Rothschilds, who forwarded it to Constantinople, and it was duly presented to the Sultan's chamberlain. "Who is this man?" asked the chamberlain of the Sultan's treasurer. "Don't know him," replied the treasurer. "Is he one of our anything?" asked the chamberlain. "No," replied the other. "Then don't pay it," decided the chamberlain. "But if I might advise," said the crafty treasurer, "this draft comes through the Rothschilds, with whom we are negotiating a loan. Would it be safe, under the circumstances, to dishonor it?" "Pay it," said the Sultan's chamberlain, and so the speculator was \$2,000 richer than he knew, to his own great astonishment.—London Telegraph.

But there was one thing greater and grander than human words. It was the soul of Alexander Bull as it spoke in that memorable song to the soul of his departed and honored father. If the spirits of the dead can have any concern with those whom they have loved in life and hover about them, then Ole Bull's soul was filled with unutterable fullness as he looked down upon the son who has striven to live on the life that his father began.—Minneapolis Tribune.

How to Prevent Pneumonia.

At this time of the year a cold is very easily contracted, and if left to run its course without the aid of some reliable cough medicine is liable to result in that dread disease, pneumonia. We know of no better remedy to cure a cough or cold than Chamberlain's Cough Remedy. We have used it quite extensively and it has always given entire satisfaction.—Olga, Ind. Ter. Chief.

This is the only remedy that is known to be a certain preventive of pneumonia. Among the many thousands who have used it for colds and influenza, we have never yet learned of a single case having resulted in pneumonia. Persons who have weak lungs or have reason to fear pneumonia, should keep the remedy at hand. The 25 and 50 cent sizes for sale at Palace Drug Store.

We pride ourselves on advertising exactly what we intend to do. Indeed much of our success has come by reason of our doing this.

Cash Dept. Store.

The county board this week let the contract for furnishing medicine and professional service to the county poor and prisoners in the jail to Doctors Danks & Packard.

Last Friday Winslow Bros., of Minneapolis, brought twenty head of fine draft horses to this city to sell to our lumbermen. Anderson Brown, after looking them over, bought the entire lot for Brown Bros. Lumber Co. They will be taken to their logging camps this week.

P. P. Stoltzman, the man of many mercantile ventures, was down from Spooner Saturday. Besides the Spooner store he is interested in a large store at Rhinelander, one at Oscoda, and has interests at Superior and other points. The burden of business bears lightly on his shoulders and you always find him in a happy mood.—Wausau County Register.

Chas. Res. Gil, Jack Welch and Max Gliniski, the three young men who stole the hand car from Mr. Yawkey last week, were arraigned before Judge McCormick Friday morning, charged with larceny. The judge gave Russell and Welch each one year at hard labor in the state's prison at Wausau, and Gliniski, who is but a boy, was let off with six months in the county jail. Sheriff Stevens and P. T. Coon took the noon train Friday for Wausau with the prisoners, returning Monday morning.

A marriage ceremony was performed at Oconto recently, the contracting parties both being known to Rhinelander people. The groom was Mr. Edward O'Donnell and the bride Miss Margaret Theresa Lindstrom. The ceremony was performed at the home of the bride's parents by Rev. Lamb, of the Episcopal church, the bridesmaid and groomsmen being Miss Nora Lindstrom and Mr. Arthur Davis, respectively. The couple will reside in Rhinelander, the groom being a Fuller House employee.

We are prepared to gum cross-cut saws on short notice and in first-class shape. Bring them in.

Don't be persuaded into buying liniments without reputation or merit—Chamberlain's Pain Balm costs no more, and its merits have been proven by a test of many years. Such letters as the following, from L. G. Bagley, Hueneme, Cal., are constantly being received: "The best remedy for pain I have ever used is Chamberlain's Pain Balm, and I say so after having used it in my family for several years." It cures rheumatism, lame back, sprains and swellings. For sale at Palace Drug Store.

DIABETES
Is a disease which if allowed to fasten its hold upon the victim will surely land him in a premature grave. It is caused by inactive kidneys. They fail to filter from the blood the impurities and poisons which it takes up from the food, and which should be thrown out of the system by way of the urine. Weak or inactive kidneys and all symptoms of Diabetes can be

CURED
I have been troubled with my kidneys for many years, and at times was so weak I was unable to leave my bed. I took two boxes of Dr. Hobbs' Sparagus Kidney Pills, and I am now completely cured. Am seventy-eight years of age, and never felt better in my life. E. D. Powers, Brookfield, Wis.
